Rexson dispensing

Powder

OUR STRATEGY

CUSTOMER SATISFACTION,
the mirror of our excellence, our commitment

EFFICIENT SUPPLY CHAIN,
to deliver the right solution,
right place, right time

USEFUL INNOVATION,
because we address industrial issues with
technology and know-how

“ With a wide offer of Products,
Solutions and Services
we deliver Performances ”

OUR RANGE

SAMES KREMLIN offers customers complete solutions, from a pump to a complete application system.

We are designers and manufacturers of process equipment divided into **6 ranges**:

We have been an Airspray manufacturer since 1925, bringing you the very best in Finishing.

We have been the creator of Airmix® since 1975, bringing the perfect mix between quality and productivity.

We provide premium Airless products for finishers with demanding applications.

Pumping beyond possible, dispensing precisely.

Expertise for high finishing quality & efficiency.

For highest Productivity since 1960.

in 50+ different Markets and 5 Continents

With our manual spray guns, automatic and robotic applicators, our wide range of pumps & machines for fluid handling, dosing, mixing & dispensing, we allow you to **“Apply Your Skills”** for the best performance and productivity possible.

CUSTOMER BENEFITS

Our products pursue the following key objectives for our customers :

PERFORMANCE

Because finishing & dispensing are key processes in most factories, our products deliver leading performance to reach your quality requirements.

PRODUCTIVITY

Our high capability product ranges provide a real leverage on your industrial investment enabling unknown levels of production output.

SUSTAINABILITY

Robustness & reliability are standards for our products, as is providing a quick payback while saving significantly on production costs.

SAMES KREMLIN TIMELINE

90 Years of innovation

KREMLIN introduces the **first Airspray** gun in Europe to the finishing industry. The popularity of this gun spreads so quickly that all types of spray guns become known as "Kremlins".

1924

KREMLIN launches AIRLESS spraying in Europe.

1947

SAMES introduces the JR50, the first industrial powder coating manual gun, to the world.

1955

First **automotive** paint system installed at French auto manufacturer, **Citroën's** Aulnay plant.

SAMES launches **INOPELL**, its innovative bell technology for powder applications.

1990

SAMES, a French acronym explaining the scientific applications of the **electrostatic** mechanisms, opens in France.

REXSON launches its industrial equipment range for **high viscosity** materials.

Electrostatic systems are installed in many R&D facilities worldwide.

Expansion of automatic paint machines & **water-based paints** within the **automotive** market.

KREMLIN impacts the paint market with **Airmix®** - a unique technology combining quality finish & productivity with **high transfer efficiency** to achieve minimal overspray.

SAMES disrupts the paint market with **ACCUBELL**, its best technology for water-based paint applications.

KREMLIN launches **Cyclomix™**, a complete range of 2K liquid electronic proportioning systems, integrating the innovative **Injectmix™** concept.

The **ACCUBELL** is upgraded with the **EVO** version delivering an ultimate evolution of the iconic bell into the paint market.

REXSON introduces the **Quatro™** 4 Ball Pump range delivering high & constant flow.

Integration of **robotics** on paint lines.

SAMES launches robotics range with PPH 707 THV, the turbine **high speed** SuperLife™, to the market for electrostatic **bells**.

SAMES KREMLIN launches the **NANOGUN AIRMIX®** electrostatic manual spray gun.

1994

1995

1998

2000

2001

2004

2007

2009

2011

2017

SAMES develops the first powder quick color change booth, **PVV EasyColor**.

KREMLIN introduces the first packing-free pump technology, the **Flowmax®**, double acting piston pumps with **SuperLife™** bellow seal.

REXSON designs & manufactures the first High Accuracy Flow Control Dispensing Gun - **Volurex®** for **Automotive** industry.

Successfully launches new **powder coating** **Mach-Jet** equipment and Auto-Mach-Jet.

KREMLIN REXSON commercializes the **Xcite™ AIRMIX®** gun, distancing itself from the competition with a superb design & exclusive technology.

Sames and Kremlin-Rexson merged to become **SAMES KREMLIN**

Original Designer
& Manufacturer of

painting and
dispensing

equipment, we have been pursuing developments and innovations through our extensive integration of solutions for industrial process in various markets.

SAMES KREMLIN integrates its own technology for decades all around the world.

Our engineering group has delivered to the market, best performances with our own equipment.

A dense and qualified network of partners in the value chain, help us to provide the best value for cost compromise to our customers. From simple applications to the most complex engineering concepts, there is always a solution to be found at **SAMES KREMLIN** group and network.

**We Are Making
Manufacturers
More Competitive**

PROJECT SUPPORT

IN 3 KEY DRIVERS

NEW PROCESS IMPLEMENTATION

- Complete new factory/workshop from scratch (Greenfield)
- Existing factory/workshop modifications (Brownfield)

EXISTING PROCESS OPTIMIZATION

- Transfer efficiency improvement
- Cycle time reduction
- Material loss reduction

PROCESS MODIFICATION

- New material to handle
- Line Capacity increase
- New party type handling

SERVICES

SPARE PARTS

Genuine spare parts delivery with excellent supply chain and support, to maintain and extend the life of our customers production tool.

TECHNICAL SUPPORT

Our network of experts are continuously trained & qualified to deliver technical expertise on our customers production tools, while addressing any issues.

SERVICE CONTRACTS

We take the worry out of our customers industrial investment by customizing a service plan to support all their requirements.

PROCESS LAB SERVICES

We perform in-house validations & new developments of our customers processes.

CUSTOMER ASSISTANCE

A strong, reliable partnership involves supporting our customers anywhere, anytime to minimize stoppages & reduce downtime.

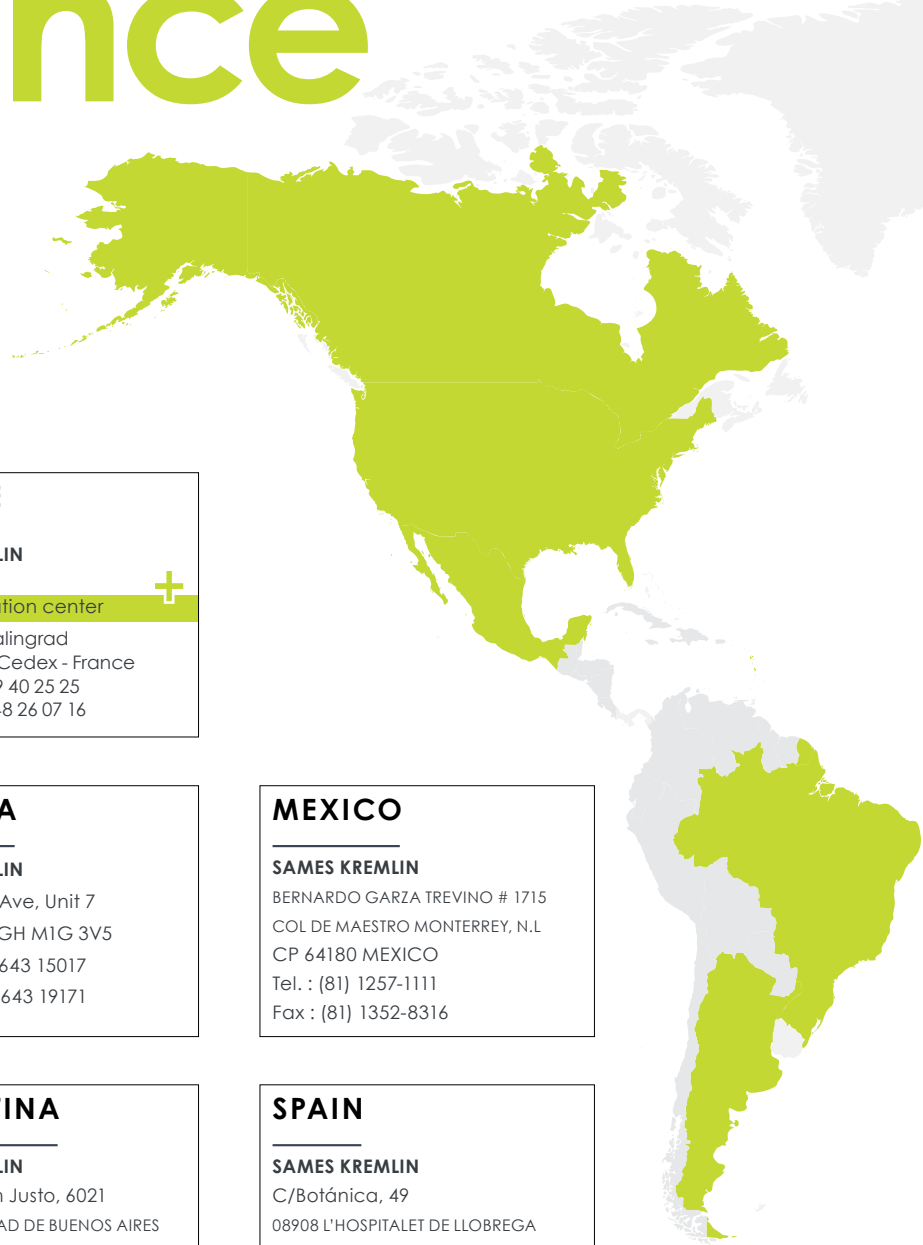

TRAINING

We train our partners to combine our products in the best way to achieve the best performances & production capacity with the highest return on investment (ROI) for our end-users. We also train our customers to process the corrective maintenance procedures to predict the failures while establishing a complete maintenance management.
